Instructions

1
^ COLLAPSE ^

- 2.
3. Preliminary Setup:
4.
 1. Go to w3schools.com
 2. Create an account (preferably with your college account)
 3. Visit my-learning.w3schools.com/tutorial/git
5. Complete the following readings:
 5. Essentials 1.1, 1.2, 1.3
 6. Essential Commands 2.1, 2.2, 2.3, 2.4
 5. Branch Management 3.1, 3.2
 6. Remote Collaboration 4.1-4.9
 7. Security Practices 6.1-6.3
8. Attempt the Git Quiz (aim for <=70%)
9. Verify you're in the main branch via ``git status`` or ``git branch``
9. If not, ``git checkout main``
10. Create a branch for this assignment ``git checkout -b M1-Git-Readings``
11. **Note:** In this assignment, we'll make the pull request later. In future assignments, we'll likely open it earlier so we can use the URL for assignments
12. Fill in the items in the worksheet below (save as often as necessary)
13. Once finished, export the worksheet
13. Take the exported file and add it anywhere in your repository (a Module1 folder is best, but not required)
13. Make sure git detects it by checking with ``git status``
14. If everything is good, continue to submit
 1. Track the file either with ``git add path/to/file`` or ``git add .``
15. Commit changes via ``git commit -m "some relevant message"``

Push the changes via `git push origin M1-Git-Readings`

16. Go to GitHub and use the dropdown in the top left to find the M1-Git-Readings branch and ensure the file is present
17. If the file is there, either use the pull request popup or go to the pull request tab and open a request where main is base and M1-Git-Readings is compare
Open and complete the merge of the pull request (it should turn purple)
Go to Canvas and upload the same PDF that you just downloaded and pushed to GitHub

Branch name: M1-Git-Readings

i Details:

Each prompt should have a few reasonable sentences.

Columns: 1

Sub-Task

Group: Github Readings

Task #2: Reflection

Sub Task #1: Mentions issues or no issues

≡ Task Response Prompt

Explain in concise steps how this logically works

Response:

I didnt have any issues completing the git readings. I read each passage through and felt fairly comforable with the material.

Sub-Task

Group: Github Readings

Task #2: Reflection

Sub Task #2: Summarize core concepts related to the readings

≡ Task Response Prompt

Explain in concise steps how this logically works

Response:

The readings explained that Git manages projects with repositories, clones projects to work on your local device, allows tracking, and allows version control. It explained the basics of Git, like how to add new files and how to have a

"save point" (commit) in our repositories. It also explained that Git branches are separate versions of the main repository.
